

Amsterdam, September 27-29, 2017

Steering Committee**General Chair:**S. Volz, CNRS,
Ecole Centrale Paris**Vice General Chair:**A. Poppe, Budapest
Univ. of Technology and
Economics, Hungary**Programme Chair:**J. Janssen, NXP,
The Netherlands**Publicity Chair:**

J Parry, Mentor Graphics, UK

Members:B. Courtois (hon. chairman),
France
G. Martin, Philips Lighting,
The Netherlands
W. Luiten, WLC,
The Netherlands
A. Napieralski, TU Lodz,
Poland
M.Rencz, BME, Hungary
D. Schweitzer, Infineon,
Germany
B. Wunderle, TU Chemnitz,
Germany
V. Tsoi, Huawei, Sweden
A. Ziaei, Thales, France**Sponsored by**

The 23rd THERMINIC Workshop will be held in Amsterdam, close to the famous canals and the Amstel river, at a walking distance from the picturesque canal zone and 3 km from the famous Rijksmuseum and van Gogh museum. THERMINIC is the major European Workshop related to thermal issues in electronic components and systems. For academics and industrialists involved in both micro and power electronics this annual event promises to be a very special occasion with a high quality technical programme and exciting social events. We invite delegates to consider submitting abstracts that are related to, but not limited to, the following topics:

Thermal Phenomena, Simulation and Experiment

- Thermal management of electronic component and systems
- Classical and modern thermometry and thermography
- Multi-physics simulation and field coupling
- Thermal interface materials
- Thermal modelling and investigation of packages
- Power electronics
- High Temperature electronics
- Solid state lighting / LED's
- Thermal characterisation of micro and nano domains
- CFD modelling and benchmarking
- Advanced thermal materials
- Heat transfer on the nano-scale
- Thermal performance of interconnects

- Temperature mapping
- Electro-thermal interactions
- Nanotechnology applications
- Flow visualisation

Electronics Cooling Concepts

- Thermo-electric cooling
- Novel and advanced cooling technologies
- Sub-ambient cooling
- Heat pipe assisted cooling
- 3D integration and cooling concepts
- Cooling concepts: air, liquid, etc.
- Ultra low form factor air cooling
- Novel manufacturing methods

Thermo-Mechanical Reliability

- Thermo-mechanical reliability
- Prognostics and health monitoring
- Lifetime modelling and prediction
- Damage and fracture mechanics

Technical Programme will include oral talks, poster presentations, special sessions and invited talks given by prominent speakers.

Pre-Conference short-course: September 26th, Fundamentals of Electronics Cooling Design

Authors are invited to submit an abstract describing recent work. Abstracts must detail the objectives of the work presented and demonstrate new results. All abstracts will be double-blind reviewed. Please, refer to the www.therminic.eu web page for information on past THERMINIC workshops. This site will also guide you to the website of THERMINIC 2017. Accepted contributions will be published in the Workshop proceedings, and archived in IEEE Xplore (provided they comply with specifications). THERMINIC papers can be searched through IEEE, Google scholar and other search engines. **Vendors and Book Exhibitors** are invited to offer products in the scope of the Workshop. Exhibitor space is available – please contact local committee for further details. Editors are invited to exhibit books.

Deadline abstract submission:

extended to 28th April 2017

Notification of acceptance:

14th June 2017

Submission of paper for workshop proceedings:

10th August 2017

Please check the Workshop website for details on hotel bookings and travel arrangements.

Venue

Hotel CASA
Eerste Ringdijkstraat 4
